

Calcium Remover ASR liquid

Calcium Remover for rollers

Product Usage

Calcium Remover for rollers

Features and Benefits

- **Good cleaning power**
To dissolve and remove deeply and quick calcium residues from ink rollers caused by the paper, water and ink
- **Gives back to the ink rollers its former good ink transfer ability**
- **works gentle and quick**

Packaging

1 liter bottle (10x1 liter/carton)

Directions

Wash down ink from ink rollers. Put blade in OFF position and apply Calcium Remover ASR liquid onto the ink rollers and let runs for ca. 3-5 minutes. Then wash down with warm water.

Then follow with a water miscible wash to remove remaining residues
