

## **PP006 – Orange Hand Cleaner**

Date: 29/08/2013

### **Technical Datasheet**

#### **Description**

Orange hand cleaner is a high viscosity paste designed for general purpose cleaning of the hands to remove even the most stubborn of dirt and grime. Formulated to be low irritancy, and contains micro granules to help remove excessive dirt. Orange hand cleaner also contains lanolin derivatives to help protect against dermatitis.

#### **Properties**

- Non-flammable – Flashpoint >100°C
- Contains micro granules for deep cleansing even dried deposits
- Contains lanolin derivatives to help prevent dermatitis
- Thick emulsion of soaps and cleaning detergents
- Improves print quality through increasing blanket efficiency
- Excellent cutting power on various ink types without harming skin.

#### **Method of Use**

- Apply liberally onto hands and wash off with warm water.
- To further prevent skin dryness use regularly in conjunction with PP001 Barrier cream applied before starting a shift.

#### **Storage and Shelf Life**

- Store solvents safely within the printing environment to allow them to acclimatize to pressroom conditions – working temperatures will affect evaporation speed of solvents and hence can influence their effectiveness. Consult own company risk assessment and fire risk assessment for guidance on suitable storage containers depending on properties of the chemical.
- If left unopened and kept in the correct conditions this product has a recommended shelf life of 6 months.

#### **Health and Safety**

This product is categorized with the following hazardous associations:

GHS07: Exclamation Mark

Always wear suitable safety equipment when handling pressroom chemicals. Will not give rise to significant hazard provided good standards of industrial practice are maintained. Consult MSDS for further information.

#### **Available Pack Sizes**

1kg, 5kg pots
