

WPS Premium Letterpress Plates for ADHESIVE LABELS

- // Excellent ink transfer
- // High quality repeatable clichés

For the adhesive label printing market Wifac can offer a foil back substrate plate for label and seal printing. With the WPS Premium Letterpress Plate you will be able to print award winning labels. The plate is able to do re-prints if cleaned and stored in a proper way. The plate is also excellent applicable to business forms, commercial and security printing. Available in analogue and digital.

The processing of the plate is very easy. PVA based ingredients are responsible for resolving completely in the water. No residue remains in the wash water and there is hardly any smell. A cliché can be processed in only 30 minutes from virgin plate to ready for press product.
